

# Docker Configuration via /etc/docker/daemon.json

## Prevent Creation of dynamic iptables rules

```
{  
    "iptables": false,  
    "ip-masq": false  
}
```

## Configure DNS server

```
{  
    "dns": ["192.168.100.254"],  
}
```

>docker
