

# Logwatch

## no http/404/errors in log

```
$ cat /etc/logwatch/conf/services/http.conf
# do not print all the 404 errors
$http_rc_detail_rep_404 = 20
```

## hostname in output

```
$ grep hostname /etc/cron.daily/00logwatch
/usr/sbin/logwatch --output mail --hostname host.domain.com
```
