

# pdftk

## Attach Files to PDF file

```
pdftk in.pdf attach_files ^
      file1.txt ^
      file2.txt ^
      file3.txt ^
      output out.pdf
```

## Extract pages from PDF file

```
pdftk A=source.pdf cat A1 A22-37 A82-93 A122-A129 output output.pdf
```

## Add blank page

Create file blank.pdf  
Add B=blank.pdf to pdftk call  
Use B1 everywhere a blank page is needed.

```
pdftk A=source.pdf B=blank.pdf cat A1 B1 A22-37 A82-93 A122-A129 output
output.pdf
```

## Rotate Pages

Add the rotation information to the pages in question
